

EXPERIMENT-01

PASSPORT AUTOMATION SYSTEM DATE

AIM To develop the Passport Automation System using Umbrello UML Software

Software Requirement: Umbrello UML.

Use case Diagram:

Result: Thus the project to develop Passport Automation System was developed using Umbrello and Implemented successfully.

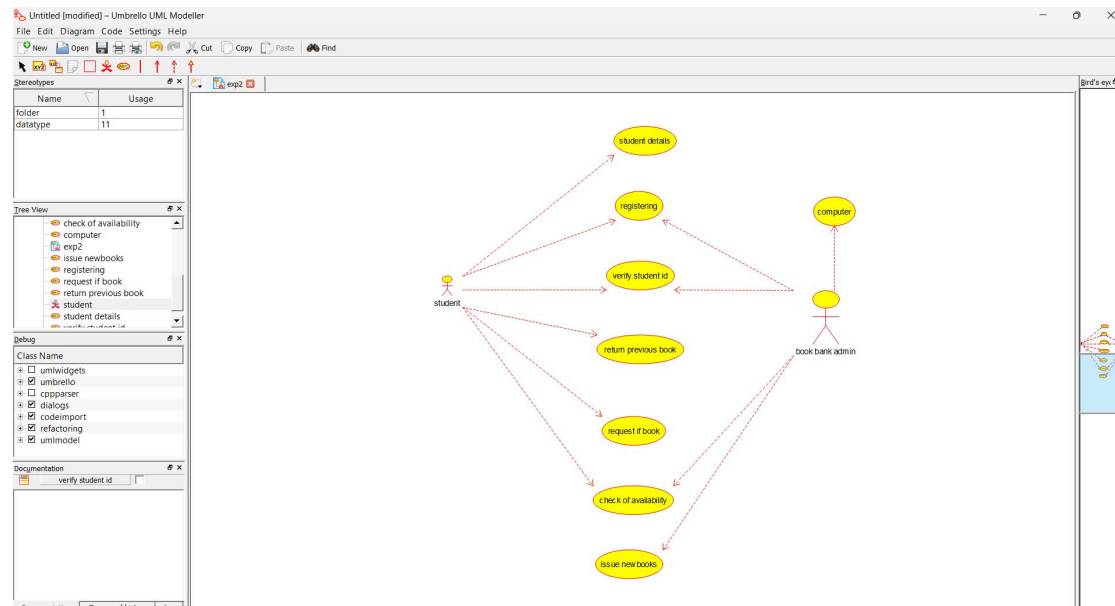

EXPERIMENT-02

Book Bank Management System

AIM To develop the Book Bank Management System using Umbrello UML Software

Software Requirement: Umbrello UML.

Use case Diagram:

Result: Thus the project to develop Book Bank Management System was developed using Umbrello and Implemented successfully.

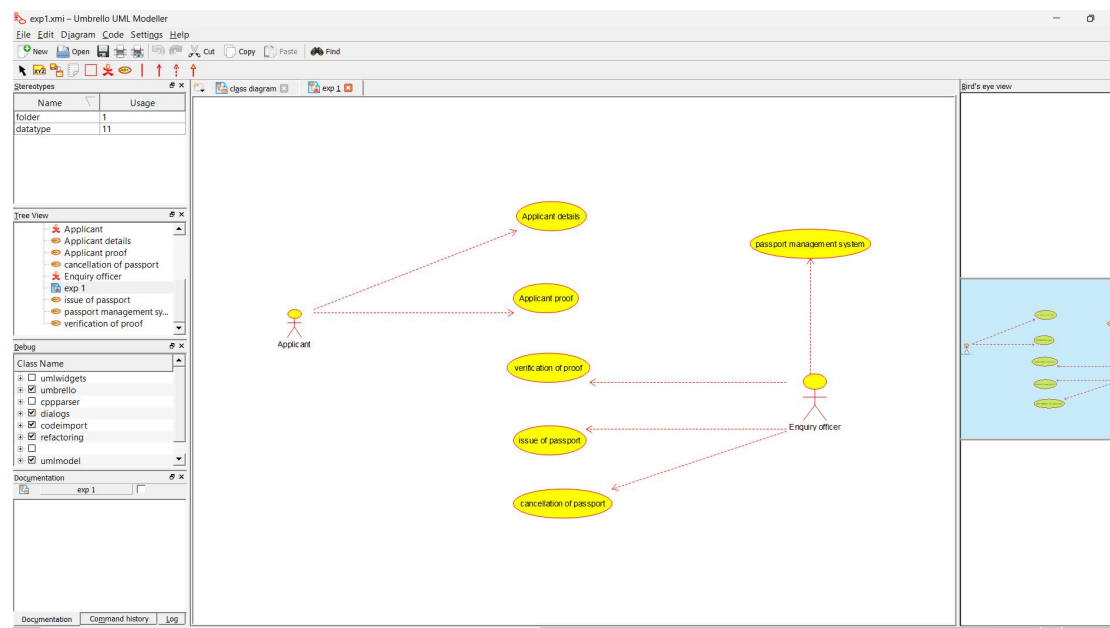

EXPERIMENT-03

Exam Management System

AIM To develop the Exam Management System using Umbrello UML Software

Software Requirement: Umbrello UML.

Class Diagram:

Result: Thus the project to develop Exam Management System was developed using Umbrello and Implemented successfully.

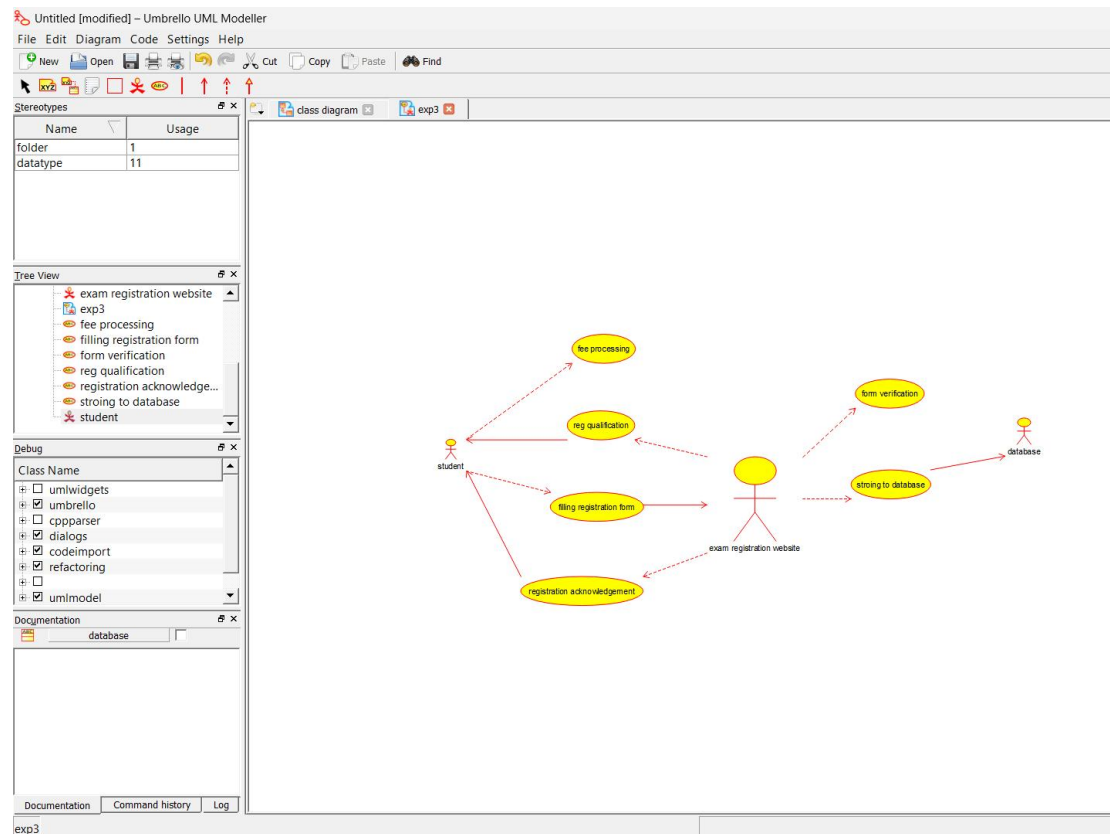

EXPERIMENT-04

Stock Management System

AIM To develop the Stock Management System using Umbrello UML Software

Software Requirement: Umbrello UML.

Class Diagram:

Result: Thus the project to develop Stock Management System was developed using Umbrello and Implemented successfully.

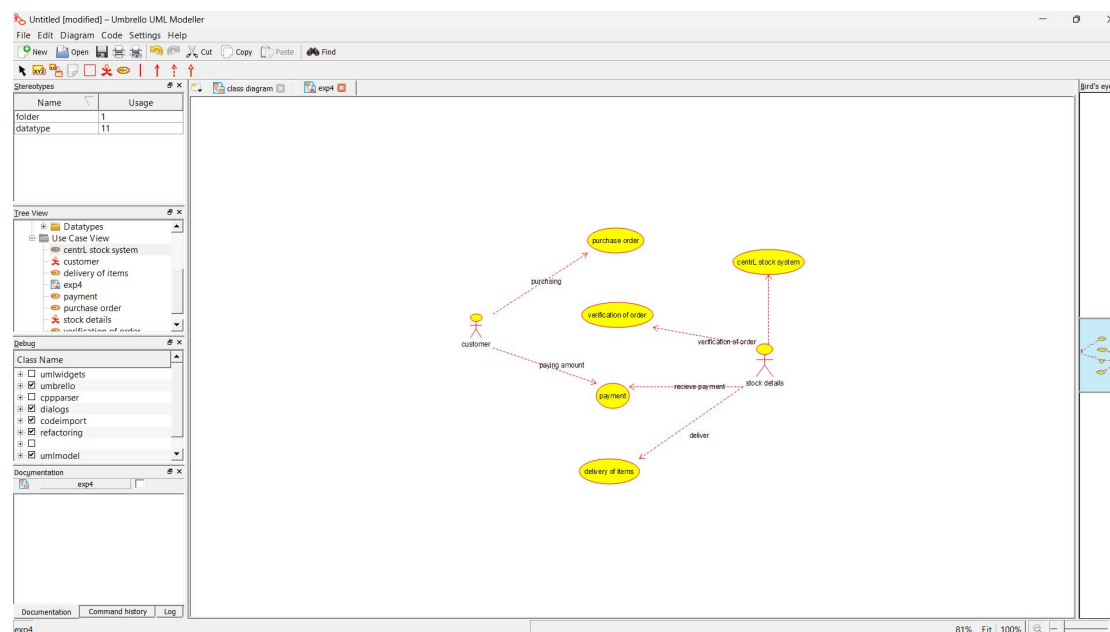

EXPERIMENT-05

Online Course Reservation System

AIM To develop the Online Course Reservation System using Umbrello UML Software

Software Requirement: Umbrello UML.

Class Diagram:

Result: Thus the project to develop Online Course Reservation System was developed using Umbrello and Implemented successfully
